OBJECTIVE

I am a motivated BCA student with a strong passion for web development and a solid foundation in technology and programming. I have expertise in C, C++, JavaScript, PHP, MySQL, Linux Administration, HTML, and CSS. With a CCSA certification in Cyber Security Analytics, I have developed a keen interest in creating secure and efficient web applications. My practical experience includes developing a web application for a Load Exporting System. I am eager to leverage my skills and knowledge in dynamic and challenging environments to contribute to innovative technological solutions.

EDUCATION

Bachelor of Computer Applications (BCA) 2022 - 2025 (Expected)
